

Hello Friends,

Grace and peace to you in the mighty name of our Lord & Savior, Jesus Christ.

We continue to make great progress in our work at Healing Hope Missions in Malawi. Our branch churches are continuing to grow, during August we add 30+ home groups throughout our surrounding villages.

And we've expanded into Mozambique - 3 new pastors have joined us and we're scheduling trips into Mozambique to begin training rural farmers in "Farming God's Way" methods and provide Bible training. We're helping them with outreach in "The Way of the Master."

We're ready for our 1st High School classes, the building is looking good and the floors are very nice, we start 9th & 10th grades this month.

Dining Area Class Room Hallway

General, Office & Conference room areas

We've expanded our poultry operations to assist with the cost of High School Operations

Broiler Chicks at day old, 1 week, 2 weeks and 3 weeks

After three weeks we place the birds into cages which keep the growth, feed, water and size consistent for all. It also makes for easier clean-up, maintenance and care of the birds. After the final 3 weeks, we sell wholesale to vendors and our customers in the surrounding villages.

We've also begun our harvest of Nandolo (pigeon peas) these are a very good source of nutrition for our school children as well as a source for revenue to support our school.

Our green energy project is just about complete. Our facilities are working on direct sun light through our solar system daily. In the evenings we use batteries to power all the lights. We'll upgrading the solar system 2018 to meet all our energy requirements - mill, refrigeration, cooking etc.

Thank you all for your care and prayer. We are reaching a multitude, expanding God's kingdom, and seeing God work in and through us daily.

Ministering to the physical, mental and spiritual needs day to day.

Blessings in Jesus Name.

Rev. David & Martha Cuffaro
