

Hello Friends,

I trust all is well and pray for you to prosper even as your soul prospers. I'm continually reminded that no matter what happens, no matter the circumstances we find ourselves in, God is in control and works out and solves every problem and takes us through the fire, wind, storm and floods of this life on a journey to our final home, heaven.

February has been another fantastic month at Healing Hope Missions, Jesus is King of Kings and Lord of Lords in all we do and put our hands to as we work in His harvest as co-laborers.

Our Garden and farm are flourishing. The rains keep falling, we are expecting tremendous results come harvest time.

The children are excelling at Beulah K Christian Academy

My home group continues to grow, excel in worship and Bible knowledge and memory verses  
The boys in this picture are taking good care and regularly training the security team(9 Rhodesian Ridgeback dogs).

We've put the school name and HHMI logo on the bus, which is now in use.

We've repainted our entrance gates and are applying a second coat of paint to the High School.

We're expanding our poultry operations to assist with the upcoming cost of operating the high school. We'll increase the broiler population from 4,500 every 6 weeks to 10,000.

We're reorganizing our ware house with the racks donated and sent in our last container. (thanks Don & Jerry!)

Our church is continuing to grow and thrive as we go out into the highways and byways sharing the Gospel and compelling them to come in through the ministry of the word of God.

Thanks for all the prayer. Everything you've sown into this work is being multiplied exponentially. We are so blessed beyond measure and give the Lord all the praise all the glory and worship due His name! Martha and I will return to our mission in Malawi late May, after our grand daughter, Destiny, graduates from High School.

If you are interested in learning more about our work please visit our website, details and video's are at the site that will give you a greater understanding of what God has us doing in Africa.
